

Concrete Pouring Machine

Material Lifts | Model: CONCRETE-POURING-MACHINE

STANDARD COMPONENTS

Steel anti-slip wheels, galvanized steel wire rope, tray, base, motor power box.

TECHNICAL SPECIFICATIONS

Lifting Height: 3-12 m, default 3 m per section (customizable)

Lifting Speed: 70 m/min

Load Capacity: 120-200 kg

Self-Weight: 70-150 kg

Motor: Copper-wound motor

Control: Wireless remote control, dual-purpose handle and cable

Control Range: 150 m

Steel Wire Rope: Galvanized

Wheels: Steel anti-slip
